## 2023 FESTA MAJOR PROGRAMME

Dear Les Corts residents, the 2023 Les Corts Annual Festival is about to begin!

I've only been the District Councillor for a short time, but I know for a fact that this is one of the most keenly awaited events in Les Corts. And I am especially thrilled to introduce myself and come to the district for the first time for such an important festive occasion. I am thrilled and really looking forward to beginning a new chapter in Les Corts, with the hope of doing my bit to continue improving the district, with energy and drive to encourage everyone to participate, with the aim of getting involved in the area and with local residents, of being one more in such a small but, at the same time, lively, dynamic and active district.

Firstly, I would like to thank everyone who has made this festival possible year after year, over 220 editions now (which sounds easy when you say it). Thank the organisations, facilities, shops and festival committees, and all the district's residents. Without your participation, involvement, work and effort, none of this would be possible. This year, you can enjoy over 200 activities, spread out over our three neighbourhoods, and with something for everyone. Music and popular culture, human-tower groups and giants, communal meals, workshops and children's activities, theatre and exhibitions, routes around the district and much more!

The Les Corts District Council wants you to enjoy the festival, to dance, chat, walk around, applaud, share and rediscover Les Corts. To take over the streets and squares and make it your festival! And as always, have a great time but with respect, civic behaviour and in harmony with other residents, saying no to any kind of violence, sexist behaviour, racism or aggression.

Have a great festival! Long live Les Corts!

**David Escudé**

***Les Corts District Councillor***

## **Let's fill the streets of Les Corts with colour!**

Our Festa Major is upon us, organised by residents of the district's three neighbourhoods: La Maternitat i Sant Ramon, Pedralbes and Les Corts. A community, a town and a district which relates to its people in many different ways. One of the most delightful is our annual festival, where everyone comes together to celebrate popular events. In Les Corts, the festival has survived over time thanks to the enthusiasm, perseverance and participation of many generations of industrious people who wanted a popular festival that fosters community life and showcases the culture and associations of our neighbourhoods.

This year's event has been prepared over many months by dozens of people, members of festival committees, residents' associations and organisations who have worked enthusiastically as volunteers. The Les Corts Festival Board has produced a programme with over two hundred activities spread out over the district's three neighbourhoods. The Board's goal is to invigorate the district's neighbourhoods during the festivities and we want to thank those taking part, associations, institutions, the district and everyone who has contributed their willingness and team spirit.

From 29 September to 8 October, you can enjoy concerts, popular culture, sport, workshops, get-togethers, open days, activities for young people, cultural itineraries and, above all, a fraternal spirit and community life. An inclusive programme of activities, so that all local residents can take part, combining tradition and innovation, to experience the festivities with passion. We will be decorating streets and squares, putting cava on ice, preparing meals and festival venues. As we do every year, we encourage you to make the emblematic spots in our neighbourhoods your own.

What's more, this year we are celebrating the 200th anniversary of the constitution of the first Les Corts Town Council, in 1823. That spirit of improvement and tenacity to build a community is the example we must follow in order to develop, strengthen and maintain one of the oldest annual festivals on the Barcelona Plain, dating back to 1806.

For the Festa Major, hang a flag on your balcony! With respect, day and night, with zero tolerance for any sexist or LGBTI-phobic aggression. "Ni una menys!" [Not One Less!].

At the Les Corts Festival Board, we wish you a great multicultural, inclusive and plural festival, with the values that a district like ours projects outside our boundaries, those of participation, culture and common sense at all our events. Let's make our neighbourhoods happier, more active and more participative!

**Let's fill Les Corts with colour!**

## Local commerce, opening speakers for 2023

Les Corts is proud of its shops and its retailers. Local shops, a personal touch, high-quality produce... and all just around the corner! And for commerce, associations are a key factor for creating ties, new initiatives, improving competitiveness, adapting to change and improving neighbourhood cohesion. This year, they are the protagonists of the Festa Major opening speeches. For many reasons: because they are part of the district's social fabric, because they help to form local-resident networks, because they take part in social projects, because they know the stories of local residents who shop in their establishments every day and because they know the area better than anyone!

The district has four retailers' associations and shopping hubs, with dozens of members offering locally-sourced produce and services. And for those who don't know about them, here is a brief presentation: **Cor de les Corts**, in the Les Corts neighbourhood, is an association for retailers and business people that aims to revitalise, showcase and foster local commerce and hospitality establishments, while also encouraging them to work together with local organisations and large-scale operators in the area. At the northern end of the district, we find **Mirall de Pedralbes**, which is over 25 years old. It aims to foster and promote local commerce in the area, generating activities of interest to the commercial establishments, as well as consumers and local residents. La Maternitat i Sant Ramon is home to the youngest retailers' association, **Les Corts Comerç 08028**, created in 2017 with the aim of fostering and contributing to the development and improvement of member shops and businesses, as well as promoting places for people to meet and communicate. And lastly, there is **Eix Comercial Sants - Les Corts**, which we share with the Sants-Montjuïc district. It was set up in 2005 and has become a non-profit organisation. Eix Comercial brings together the commercial establishments in Galileu, Vallespir, Joan Güell and other streets in the area, fostering local commerce based on professionalism, locally-sourced produce and quality.

### Exhibition “Tombarelles de llum” [Cartwheels of light]

From 2 to 31 October  
Light, that fleeting, impalpable and volatile energy which, with the power of a LED or the trembling warmth of a candle, modifies shapes and objects, will be our companion along the way... Faithful to the “Let's do it” culture, the result becomes clear, with physical structures which, with sensitive perception, aim to navigate intangible lands. With a lot of light and a bit of curiosity, come with us on our new luminous adventure, as surprising as life itself. Organised by the designer Antoni Solé.

## RECOMMENDATIONS FOR ENJOYING THE FESTIVAL

On the occasion of the Les Corts Annual Festival, jointly organised by the district's organisations and associations and the District of Les Corts, the following resolutions are established:

### **Foreword**

Some rules of behaviour must be followed so that citizens, visitors and local residents can enjoy the festival and have the best possible time celebrating in the streets, and for the festival to proceed without problems.

### **In Les Corts, no means no**

At our festival sexist attitudes, behaviour and conduct are not tolerated. Let's enjoy the festival with respect and equality! You will find *punts liles* [purple points] at the concert venues.

### **The festival sleeps too**

So that people who don't want to join in the action can sleep, from Sunday to Thursday the festivities end at twelve midnight. On Fridays

and Saturdays, the eve of holiday days for many, the festivities can carry on until 2:30 am. The music will stop at this time, no more drinks will be sold and silence will reign in the neighbourhood.

### **Toilets**

During their opening hours, all bars and other establishments must allow their toilets to be used by anyone who asks, whether or not they are customers. In all the festival venues there will be a toilet available for use by anybody.

### **Stalls, tables and other set-ups**

No desks, tables and chairs, stalls or similar objects may be set up in the streets without specific permission issued by Les Corts District.

### **Alcoholic beverages and minors**

As stipulated by law, the sale and consumption of alcoholic drinks by people under the age of 18 is prohibited. Furthermore, as always, the Festa Major organisers request celebrations with respect and awareness in regard to alcohol consumption. In this regard, the District is promoting the responsible consumption of these drinks, and for that reason, it has specifically trained the staff at festival bars who serve the public. There will also be information points about this matter in the festival spaces.

### **Street hawking**

To guarantee the quality of the products that can be bought during the festival and to reward the efforts the authorised establishments make to fund it, street hawking is prohibited.

## Recommendations for the fire run and other fire-based activities

Wear appropriate clothing: cotton clothes with a closed collar, long sleeves, a neckerchief around your neck, flexible, lightweight and enclosed footwear and earplugs. The more you cover, the less chance of suffering burns and the more fun you will have.

Do not throw water on the fire devils: wet gunpowder is unpredictable. Do not bring your own firework products. Respect the fire devils and the carriers and do not obstruct their path.

If you go with children, do not go in the front rows; they can often take fright and, furthermore, it can be dangerous.

Follow the devils' instructions at all times.

If you have a shop along the route, remove any obstacles that could obstruct the route of the fire run. Wind in any canopies, cover up glass windows and pull down any blinds.
